Best game ever should cost like 10 pounds mate. focken gr8 game m8 i r8 8V8
for real tho its a nice timekiller and pretty addicting
. Can't get rid of a boner.. This game is forever stuck in my played games. 11V10 best plot. Guilty pleasure. I saw boobs 10V10
would play for 20 more hours!. Typical one-hand game (\u0361\u00b0 \u035c\u0296 \u0361\u00b0). I play for the plot, i swear

AYE YO CUH THIS GAME GOT DEM POPPIN \u2665\u2665\u2665\u2665\u2665\u2665S FOR MY WEEB LUVIN SELF
10V10 BUSTED A NUT DO REC. Imagine a world where you can assault 2d\u2665\u2665\u2665\u2665\u2665all you
like for money, well vwallah this game is for you, good bye
. Not much of a game. More like an eternal afk autoclicking grind. At least they implemented the progress-while-not-playing
feature a while back (Before that you had to leave it running, which explains my 200+ hours in the game)

I think it serves as a demo to show some of the art style of the Sakura series of games.

A more fun example of this game type would be something like 'Crush Crush'.

Since you don't pay anything for it, and it doesn't format your hard drive or steal your identity (I think), I think it scores above
50% - and thus a positive rating.. Can confirm the game can be played with one hand.. lol its free to play :D. I regret nothing,
except being born. i like boobs. Leonardo da Vinci could write with one hand and draw with the other at the same time.
Well i can play this with one hand and fap at the same time.

Coincidence? I think not.. I like the variety of girls, but their quality leaves much to be desired. Overall I'd recommend this
game based on the deep gameplay and engaging plotline.
